I am a Software Developer with over two years of experience in designing and implementing interactive UI. Skilled in translating client requirements into functional web applications, with expertise in modern frontend technologies.

Key Skills

- **Frontend Development:** HTML, CSS, Tailwind, JavaScript, TypeScript, React.js, ColdFusion
- **Databases:** SQL
- **Tools:** Git, VSCode, Vercel, Chrome DevTools
- **Foundational Knowledge:** Node.js, Express.js, Angular, Bootstrap

Experience

Software Engineer | Intimetec

April, 2023 - present

I design and implement user-centered interfaces, translating client requirements into functional, accessible web apps. With expertise in UX and modern frontend technologies, I create visually appealing products, ensuring best coding principles and high-quality digital experiences.

- Developed and optimized front-end for Manufacturing Management System (MMS), improving UI interactivity and increasing user engagement.
- Enhanced React component performance, reducing load times through efficient state management and code refactoring.
- Collaborating with a team of 15+ developers to make application best to use.
- Implemented UI based on client requirements, delivering multiple POCs to showcase various ideas.

Trainee at In Time Tec

Jan, 2023 - March, 2023

Gained Practical Experience in front-end, creating e-commerce, weather forecast etc apps.

Let's Grow More

Sep, 2022 - Aug, 2023

A virtual internship, creating static websites and acquiring fundamental front-end skills.

Student Partner at StartUp-201

June, 2022 - July, 2022

Presented a strategic plan for an Online Food Delivery Business to compete against established industry giants.

Education
